✓ About Me

Full-stack web developer in training with hands-on experience building production-ready applications using React.js, Node.js, PHP, and MySQL. Demonstrated ability to deliver complete solutions — from AI-powered finance platforms to hotel management systems — covering everything from UI design to backend architecture and database integration. Passionate about crafting efficient, scalable, and user-focused digital solutions that solve real-world problems. As a fresher, I am eager to contribute technical expertise, continuously learn emerging technologies, and create innovative digital solutions that deliver real-world value.

🏢 WORK EXPERIENCE

Mobile App Developer at Anicha Digital Infrastructure Pvt. Ltd

May 2024 – Jun 2024 | Avadi, Chennai-600062

- Developed multiple small-scale mobile applications including a calculator, music player, and gallery app using Flutter framework.
- Collaborated in the full app lifecycle from design to deployment, ensuring responsive and user-friendly interfaces.
- Implemented efficient state management and optimized app performance to deliver smooth user experiences on Android platforms.

🎓 EDUCATION

Bachelor of Computer Applications at Swami Dayananda College of Arts & Science

2023-2026 | Manjakkudi-612210.

HSC at Little Flower Higher Secondary School

2022-2023

📜 CERTIFICATIONS

MobileAppDeveloper at Anicha Digital InfrastrcturePvt.Ltd

07/2024

REACT, HTML, CSS, SQL, JS, PHP

<> PROJECTS

Hotel Management System

10/2025 – 12/2055

- Developed a web-based application using PHP and MySQL to manage hotel bookings, check-ins, and check-outs.
- Implemented room availability, user management, and payment processing features for efficient hotel operations.
- Designed a user-friendly interface for both admin and guests.

ExpenseFlow – AI-Powered Personal Finance Management System

01/2023 – Present

- Developed a full-stack personal finance management web application using **React.js**, **Tailwind CSS**, **Node.js**, and **MySQL** for tracking expenses, budgets, savings goals, and subscriptions.
- Implemented **JWT authentication**, **RESTful APIs**, and **MySQL database Integration** to ensure secure user management and efficient data handling.
- Built interactive dashboards, financial analytics, notifications, and AI-powered spending insights to help users make informed financial decisions.
